

Upper Snowy Landcare Network - Pop Up Plant ID sessions Spring/Summer2023 – Final Report From Lauren Van Dyke

Funded by the Biodiversity Conservation Trust through the SE Landcare Private Land Conservation Matters program. Hosted by Upper Snowy Landcare with support from experts Nicki Taws (Greening Australia) and David Eddy (SE Local Land Services).

Four informal Pop - up Plant ID sessions were held on 12/11/23, 26/11/23, 1/12/23, 16/12/23 to welcome landholders in Adaminaby and Berridale to learn more about our native flora and to identify grasses, forbs, shrubs and trees and discern them from exotic plants (weeds).

The benefit of these events for landholders includes, learning about native plant species and will empower them to share this knowledge and to be more conscious of the requirements of native plants and animals, boosting their biodiversity knowledge. The same benefits come from the knowledge of weeds and their capacity to harm our native environment and agricultural systems.

Attendance

- Gegendzerick TSR 23 attended across both sessions.
- Adaminaby 16 people attended across both sessions.

We believe that these pop up plant identification sessions should be a permanent part of the Snowy Landcare Calendar.

Feedback:

We sent the online [PMLC Feedback survey](#) to the people and staff who attended the event in March 2024.

Learnings from this event

- We would have benefited from closer connections to the BCT staff and getting the BCT to target BCT landholders to increase their participation at this event.
- We need to develop better ways to communicate with members outside Landcare.

Pop-up session Gegendzerick TSR, Berridale – 12 Nov 2023. Pop-up session Adaminaby – 26 Nov 2023 photos below.

Pop Up Plant ID Session
FRIDAY, 1 DECEMBER 2023
ADAMINABY 10 - NOON

David Liddy (Local Land Services) and Lauren (Greening Australia) will be on hand to help you identify the plants you find. This is a great opportunity to meet other people who are interested in the environment and to learn more about the plants of the Monaro region.

Please come along and find out what native plants are growing at the Monaro and bring a plant in a bag if you would like to bring it.

Thanks to the local land services for their support in running these Pop Up Plant ID sessions.

JOIN US ON A WALK AROUND THE ADAMINABY COMMON & MARVEL AT THE MONARO GOLDEN DAISY FLOWERING

MEET: ADAMINABY COMMON ON THE EDGE OF TOWN COBBING FROM COOMBS. SEE GREEN LANDCARE FLAG.
