## Q9 Do you have any other comments or suggestions on how this event could be improved?

Answered: 9   Skipped: 6

#	RESPONSES	DATE
1	Would have liked to have seen more of the property. It was a long drive with only a short twenty meter walk into the forest. We and several others could not see, or read, most of the detail on the PowerPoint presentations because of light contamination ( too well lit a presentation area). The feeling afterwards was if no walk on the property then it could have been held in a more convenient location with a venue with better capacity for showing PowerPoint presentations.	4/14/2025 7:52 PM
2	The event was fabulous.	4/14/2025 9:20 AM
3	This is a fabulous incentive and all landholders need to be encouraged to look after their land and wildlife. It's a great opportunity to learn new and different techniques.	4/14/2025 9:19 AM
4	Nothing comes to mind	4/14/2025 9:15 AM
5	No, an excellent day. Well Done.	4/14/2025 9:13 AM
6	The event was very well delivered	4/14/2025 9:12 AM
7	no	4/14/2025 9:08 AM
8	Presenters need to be much more familiar with powerpoint. There is a lot of ways to put a presentation together that makes it easy to read and engaging. I really struggled with the purpose of collecting all the data. Not a clear aim of why landowners would do camera traps from a strategic perspective. Why would you collect and load the data besides for fun. Is the purpose to collect data that demonstrate the biodiversity or just for your interest. It was not clear.	4/10/2025 4:05 PM
9	No	4/10/2025 8:15 AM
